Art Exhibit To Feature Annual Legion Auxiliary Tea

The event which many residents have been waiting for, the Canadian Legion Auxiliary tea and art exhibit, takes place this Saturday in the Lions hall. Featuring the work of two local artists, Mrs. Clarence Hinehart and Mrs. Joyce Mullen, the exhibit will include pen and ink drawings, pencil sketches and pastel paintings.

All proceeds from the event will go to the auxiliary as all pictures have been donated by the artists. One picture, which is on display in Ranton's store, will be given as a door prize.

Tea will be served from 3 to 6 p.m. in the afternoon in conjunction with the art exhibit, and the pictures will be on display again in the evening from 6 to 9 p.m.

South West Didsbury (From Our Own Correspondent)

Mrs. George Meyer left Saturday for Edmonton to visit Mr. and Mrs. J. O'Brien and family.

Miss Marylin Batus of Red Deer spent the weekend at home with Mr. and Mrs. F. Batus and family. Mr. and Mrs. Wilbur Eckstrand of Carstairs entertained the Eckstrand families at a family dinner, the occasion being Melba's and Sharon's birthdays.

Mr. Allan Meyer returned home Thursday after being a patient in the Olds hospital.

Mrs. J. Edwards and Mrs. L. Dickau were Olds visitors Sunday, where they visited Mrs. H. Gore, who is a patient in the Olds hospital.

Mr. and Mrs. M. Dippel and Carol were Sunday afternoon visitors with Mr. and Mrs. W. Irwin.

Mr. and Mrs. Ed Weber left Friday for Hamilton, Ont., where they will visit for some time with Mr. and Mrs. Vic Walker and family.

Miss Grace Hunsperger and Mrs. E. Cressman have been visiting with Mr. and Mrs. L. Hunsperger and family for the past week.

Mr. and Mrs. L. Hunsperger and family and Miss Grace Hunsperger were Sunday dinner guests of Mr. and Mrs. L. Eby and family.

"Wait till they reach maturity!"

WESTCOTT NEWS

(From Our Own Correspondent)

Some threshing and combine outfits are now all finished in this area and this week should finish up what remains. This has truly been a glorious fall to complete the harvest.

Mr. and Mrs. R. MacFarlane have had as their guests the past week the former's brother, Mr. Whittle and Mrs. Whittle of Vancouver.

The Folkman boys, Neil and Ken have returned to their jobs in Calgary after helping with the harvest in this district.

Mr. J. Boerner and sons of Calgary were out to the farm over the week end, giving Bill a hand with harvesting operations.

Best wishes are extended to Mrs. Bradley, Mrs. Sanderson's mother, who went to Calgary last week to take treatment for an eye infection.

We were very pleased to see Mrs. Arthur Toogood last week. Mr. and Mrs. Toogood are visiting here with her parents, Mr. and Mrs. H. Levaugod, and sister, Mrs. Len Bersch of Didsbury.

No. 526—5:00 p.m. daily except Sunday.
No. 528—6:21 p.m. (flag stop) Sundays only.

Norway's Gift Graces U.N. Council Chamber

A painting symbolizing universal peace and freedom by the efforts of enlightened men through the United Nations was recently unveiled in the Security Council Chamber at U.N. Headquarters. The 16 by 26 foot mural was painted by the famous Norwegian artist, Per Krogh, on commission from the Norwegian Government which contributed the decorations and fittings of the Chamber. The marble-framed mural is set into the east wall of the room and faces the public gallery. Shown are two workmen completing the installation.

SUCCESSFUL CHICKEN SUPPER HELD LAST SATURDAY

The Evening Group of Knox United Church W.A. held a very successful chicken supper last Saturday evening.

Proceeds from the supper, which amounted to \$225, will assist in the upkeep of the manse and pay janitor's fees.

The group wishes to thank all those who patronized this annual event, and much credit must be given to the organization for the fine meal provided and those who were responsible for its success.

Town Council Favors Pay For Members

Regular meeting of Town Council was held Monday evening in the town office, when second and third readings were given to the gas franchise by-law.

A by-law was passed granting a payment of \$1 per meeting to the mayor and councillors.

A building permit was granted to Bryan Johnson for repairs to his dwelling. Also a lot was sold to Sid Wilkins, located south of the J. Holub residence, and a house will be moved onto the property.

Two school signs will be erected on the east side of the tracks on the main road to provide protection for grade one students attending school in that area.

It was decided a fire guard would be stationed around the nuisance grounds.

Youthful bike riders will feel the strong arm of the law if the practice of riding on sidewalks is continued. It was decided by council.

The town well which was being drilled on the west side of town has been plugged and the casing pulled. No new site has yet been decided on.

It was reported sidewalk construction and repairs for the year are nearly completed with approximately two blocks of new sidewalk in evidence.

Threshing Nears End On Bumper Grain Crop

A golden stream of grain has been moving from district fields for the past few weeks now and prospects are good that the majority of threshing will be completed by the latter part of this month.

Alberta's wheat harvest has been estimated at 172,000,000 bushels with oats and barley at 122,000,000 and 118,000,000 bushels respectively. A recent Ottawa survey report reveals that this year's wheat crop is the largest Canada has ever known.

The prairie provinces will account for all but a small part of this staggering crop. Grain storage is a big problem this year but most district farmers already have made plans for storage in one form or another.

Get your Boy Scout apple this Saturday, October 11.

NO NEWS, GOOD NEWS

This week The Pioneer is faced with the problem of a shortage of local news, town and district. At this time of year, with a bumper crop, good weather and everyone really busy, it is quite understandable that there is not much going on in the district other than work.

Should the good weather continue for a short time longer we will be "over the hump" so to speak and everyone can settle down to enjoy the fruits of a beautiful harvest. For this we must be more than thankful, and this Sunday all places of worship in the town and district will hold Thanksgiving services, when citizens may attend the church of their choice to give thanks for that which they have received.

DAY LATE NEXT WEEK

Due to the Thanksgiving holiday falling on Monday, Oct. 13, The Pioneer will be published a day later than usual next week.

Correspondents are requested to get their news in the mail as early as possible and deadline for advertising copy will be Tuesday noon.

We are not averse to working on a holiday to give our readers prompt service but we have found in the past that our news and advertising is just "not there" when we publish on the regular day with a holiday on Monday or Tuesday.

So for next week, bear with us and we'll be back on schedule the following week.

WEST NOTES

(From Our Own Correspondent)

The meeting of the Elton Willing Workers has been postponed for a week and will be held Wednesday, October 15 at the home of Mrs. M. Campbell.

Mrs. Woolway returned to her home in Red Deer on Saturday after visiting Mrs. J. Hoesegood for 10 days.

Mr. and Mrs. F. Byrt returned home Wednesday from Edmonton where the former had been taking medical treatment.

Mr. Alfred Cook was an overnight patient in the Didsbury hospital on Friday last for observation.

Mr. and Mrs. O. Thompson visited with Mr. and Mrs. A. L. Hogg on Sunday evening.

Mr. C. Brown and Mrs. Lena Sanderson were Calgary visitors on Sunday afternoon, when they went down to visit the latter's mother, who is a patient in a Calgary hospital.

Mr. and Mrs. Gordon Batus spent the weekend in Calgary.

Among those calling on Mr. and Mrs. F. Byrt on Sunday afternoon were Mr. and Mrs. C. Byrt, Mr. and Mrs. A. L. Hogg and Mr. J. Bagshaw, Marian and Ken.

Mr. and Mrs. E. Batus were Calgary visitors on Sunday.

Mrs. L. Kouschik was a patient in the hospital at Red Deer over the week end.

Mrs. Boettger helped Mrs. O. Blain with the threshers for a couple of days last week.

Mr. Adam Laft returned to Calgary on Thursday after helping his sons with the harvest.

A fine weather the remainder of this week should see most of the threshing done and the gardens safely in. Despite the hail vegetables are plentiful but it had an adverse effect on the grain, a number of fields yielding only half a crop. Frost on Friday night put an end to the flowers, except for a few hardy natives, this being one of the longest seasons ever known without a killing frost.

FALLEN TIMBER NEWS

(From Our Own Correspondent)

Mr. and Mrs. Bob Moore and Brian visited Mrs. O. Moore last Sunday evening.

Constable and Mrs. Billie Dick of Calgary visited the former's parents, Mr. and Mrs. Bill Dick last week end.

Mr. and Mrs. G. Hone were Didsbury visitors last week.

Mr. and Mrs. Robert Moore, Gary and Monty, and Mr. and Mrs. C. B. Moore, spent the weekend at the home of Mr. and Mrs. J. Hoxton.

Mr. and Mrs. J. H. Cooper visited their twin grandsons, Michael and Murray, last week.

Mr. and Mrs. W. Robert, Stanley, Howard, Charlene and Ronnie have moved from our district. We will miss them very much.

Mr. and Mrs. J. Hoxton, Danny and Jeanette, Mr. and Mrs. C. B. Moore, and Mr. and Mrs. Robert Moore and Gary and Monty, were supper guests at the home of Mr. and Mrs. E. Adams of Cremona last Sunday.

Mr. Bill Moncey, who is away threshing, spent the weekend at his home.

The regular meeting of the Busy Bees was held at the home of Mrs. Joe McElaffin. Everyone enjoyed looking at Mrs. McElaffin's flower garden, which was beautiful and had escaped the frost. After the short business discussion a draw was held, with Mrs. Rosted the winner. The next meeting will be held at the home of Mrs. Janet Eytan on Wednesday, Nov. 5.

Pat McElaffin who is taking grade 12 in Didsbury spent the weekend at home.

It is hoped that Mr. H. Steen, Mr. Charlie Steen and Mr. Ivan Stair, who all had the misfortune to suffer injury in different accidents, are quick to recover.

Mr. W. W. Eytan is home again after spending some time away harvesting.

Mr. P. Fair is driving a new model truck.

Boy Scout Apple Day in Didsbury this Saturday, October 11.

Westcott Institute Set Date For Supper

The Westcott W.I. met at the home of Mrs. B. Dubois on October 2 with Mrs. A. Dubois as hostess. Twenty-two members and three visitors were present.

The roll call was answered by members bringing an article for the first fund for the coming chicken supper.

Two secret sister anniversary cards were received by members and a picture postcard was received from our corresponding W.I. in England.

Ten dollars is being sent to the Frank Chaffin fund.

Mrs. H. Wilsenius gave a report on the executive meeting held recently, including a detailed report of the newly drawn up handicraft list for the coming year. Mrs. A. Robertson gave the home economic list and a discussion followed.

The date for the chicken supper was set for Wednesday, Oct. 29 at 5:30 p.m., which will be held in the basement of Westcott church.

For her five-minute talk Mrs. C. Eckstrand gave a wonderful display of cupboard space-savers which she purchased from a Calgary company.

The members were reminded that suggestions would be welcomed for the new 1953 program. The meeting closed with lunch being served by the hostess.

Give...from the heart! SALVATION ARMY RED SHIELD APPEAL

During this month the Didsbury Lions Club will again sponsor the annual Salvation Army Red Shield Appeal in this district. When the dates are announced and a canvasser calls upon you, please give generously to an outstanding cause. The Salvation Army during the past year has given 432 persons from 180 Alberta towns 110,244 days of care in the eight Salvation Army institutes operated in Alberta. Help the Helpless—Please Give Generously.

IGNORANCE TOO GREAT FOR UNDERSTANDING

The average Canadian does not know enough about the United States to understand the problems of the people of our neighboring nation.

The average American knows less about Canada than the average Canadian knows about the United States.

Ignorance of each other is deep among the people of the various parts of Canada who know hardly enough about their national problems to maintain an effective federal government based upon coordination of their common interest.

In the United States the conflict of interests in great areas and the people of various states seriously hampers the functioning of the federal government.

It is too much to expect good understanding between Canada and the United States until the patterns of these nations have been set in custom and law, national and international.

Another hundred years of peaceful adjustment of differences and reconciliation of international aims will be required before real understanding can be implemented in living relations reflecting the common interests and ideals of the people north and south of the border, which happily is physically unfortified.

65 PERCENT OF WHEAT MAY RATE TOP GRADES

Sixty-five percent of Canada's record wheat crop is expected to rate the two top grades — No. 1 and No. 2 Northern—the Board of Grain Commissioners has announced.

This compares with six percent last year and the 10-year average of 70.3 percent. Last year, only 4 percent graded No. 1 Northern and 5.6 percent No. 2 Northern.

The board, reporting on estimates made by the Committee on Western Grain Standards, said about 20 percent of the wheat crop would grade 3 or 4 Northern. Average bushel weight would be higher than any time during the last 20 years and flour color would be excellent in the top grades.

WRONG HITCHHIKER

It often proves to be a mistake to pick up a hitchhiker. The other day a man driving a stolen car on a U.S. highway picked up a hitchhiker who happened to be the sheriff, and owner of the car.—Kitchener Waterloo Record

DANGEROUS POWER

When 1500 grain handlers in terminal elevators at Fort William and Port Arthur can threaten a strike that would disjoin the whole economy of Western Canada it would seem that organized labor has altogether too much power. No nation

of free people should have to endure such a threat.

A tie-up in transporting the huge western crop at the peak of deliveries would be a major catastrophe, from the effects of which it would take years to recover. Much of the grain has been sold and if delivery was prevented or unduly delayed customers would turn elsewhere or tighten their belts and do with less.

Organized labor has a terrible power at the present time and seemingly is inclined to ruthlessness in the exercise of the same. Things have reached almost the limit when 1,500 men can threaten the welfare of all Western Canada.—The Brooks Bulletin

THE RAPID INDUSTRIALIZATION OF ALBERTA

Just saw a word blueprint of Alberta's rapid industrial develop-

WINTER UNEMPLOYMENT MAY BE HIGHER

Seasonal unemployment this winter is likely to be higher than last year but may not reach the serious proportions anticipated earlier in 1952.

The major bright spot has been increased consumer purchasing which is now being felt at the manufacturing level with a rising level of employment in the consumer goods industries in the central provinces.

Another factor to more optimistic forecasts is the improvement in the steel supply situation.

In spite of the fact that Calgary Power added 100,000 k.w.'s to its production plant a year ago, there is already in sight a shortage of electrical energy for Alberta's expansion unless vast new generating facilities are rapidly brought into being. Plans are already made to meet the demands and by 1955 it is expected that Alberta will be consuming more than double the electrical energy being generated in 1952. Along with the industrialization is the rapid installations on Alberta farms. Calgary Power alone has added over 2,000 units to its hook-ups during the summer of 1952.—Camrose Canadian

PUBLICITY ALWAYS AN AID

We feel that the publicity ban on the efforts of the Alberta Child Welfare Departments is a short-sighted policy hiding the true value of the staff members and giving a false picture of the juvenile delinquency problems in any community.

The policy, apparently, was set out many years ago with consideration only to the young miscreants. Publicity to the cases, many of them of major proportions settled by the Child Welfare Departments, could be used by parents as a guide and by children as an example that crime of any sort "doesn't pay."

It would seem that a review of the policy or a modification is in order now.—Drumheller Mail

FEW KNOW CANCER SIGNS

Only a little more than half of all adult Canadians know even one of cancer's seven danger signals, the Canadian Cancer Society points out.

Notice of By-Law

Minister of Health
Province of Alberta

I, WALLACE WARREN CROSS, Minister of Health, pursuant to section 71 of the Municipal Hospitals Act, R.S.A., 1942, as amended, and pursuant to any other appropriate sections of the said act, do hereby direct that a vote shall be taken on By-Law No. 1/52, as enacted by the DIDSBURY MUNICIPAL HOSPITAL DISTRICT BOARD, which by-law is hereinafter recited:

BY-LAW No. 2, 1952
DIDSBURY MUNICIPAL HOSPITAL DISTRICT No. 33

A By-law relating to the issue of debentures of the Didsbury Municipal Hospital District No. 33, of the Province of Alberta.

WHEREAS it is necessary and desirable that the sum of Ninety-Eight Thousand (\$98,000) dollars should be borrowed on the security of the Didsbury Municipal Hospital District, No. 33, of the Province of Alberta, for the purpose of erecting and purchasing equipment for an addition to the present Hospital Building repayable to the bearer in Twenty (20) consecutive annual instalments with interest at not more than Six (6) per cent per annum. NOW, THEREFORE, the Board of the said district enacts as follows:

1. That the Board do borrow the said sum of Ninety-Eight Thousand (\$98,000) dollars or any less sum pursuant to the provisions of The Municipal Hospitals Act, and that debentures of the said district be issued for such amount, payable to the bearer in Twenty (20) consecutive annual instalments with interest at not more than Six (6) per cent per annum, payable annually, and the said debentures shall be executed by the Chairman and Treasurer of the Board.

DONE AND PASSED this 13th day of September, A.D. 1952.

A. W. REIBER,
Chairman
R. G. McARTHUR,
Secretary-Treasurer

I hereby appoint Mr. W. W. Gillrie of Didsbury, Alberta, as returning officer for the taking of the said poll, who shall divide the area into polling divisions, and name a polling place in each division, and appoint a Deputy Returning Officer for each polling division.

I direct that the provisions of section 21 of the Municipal Hospitals Act shall apply to the preparation of a voters' list and preparation of a separate list for each polling division as therein provided.

I further direct that the Returning Officer shall give notice of the date of such poll in the week of 8-15 October, 1952, issue of The Didsbury Pioneer being a news paper circulated in the Hospital District, and that a like notice be posted in any other places at the discretion of the Returning Officer, throughout the hospital district at least fourteen (14) clear days before the date of the poll.

I hereby fix the date for taking of the poll as the 1st day of November, 1952, from the hour of 9:00 a.m. to 6:00 p.m.

I further direct that the said Returning Officer shall on the 4th day of November, 1952, at 2:00 p.m. in the office of the Secretary-Treasurer, finally declare the results and certify to the Minister the total number of voters voting and the number of voters voting in the affirmative and the negative on the question.

DATED AT EDMONTON, Alberta, this 25th day of September, A.D. 1952.

German Combine Has New Features

A German combine harvester, being distributed by Swiss Steiner Limited, 9 Richmond Street East, Toronto, has been on a demonstration tour of Western Canada. It was operated in the Lethbridge and Calgary district. It is planned to start the sale of this combine in Canada next year. Distributing agencies will be set up at central points.

The main feature of this Claas combine, as it is named, is its solid construction. A guarantee against breakage due to any deficiency in material is given for a three-year period. The combine has some novel features, one being the location of the threshing cylinder at the side of the machine within easy access of the operator. Another is an apparatus for baling straw which is attached to the rear end of the combine.

Notice of Poll

DIDSBURY MUNICIPAL HOSPITAL DISTRICT

PUBLIC NOTICE is hereby given that a vote will be taken on Saturday, Nov. 1, 1952, to ratify or reject the scheme or plan of the Didsbury Municipal Hospital District.

That a poll will be open from nine o'clock in the forenoon and kept open until the hour of six o'clock in the afternoon in the following Polling Stations in the Didsbury Municipal Hospital District.

Polling Division No. 1 — Twp. 30, Rge. 27. Polling station, Bancroft School.

Polling Division No. 2 — Twp. 30, Rges. 28 and 29. Polling station, New Berghall School.

Polling Division No. 3 — Twp. 30, Rge. 1, east half or Rge. 2. Polling station, Carstairs Hall.

Polling Division No. 4 — Twp. 30, Rge. 3, west half of Rge. 2. Polling station, Jackson School.

Polling Division No. 5 — Twp. 30, Rge. 4. Polling station, Cremona Hall.

Polling Division No. 6 — Twp. 30, Rges. 5 and 6; Twp. 31, Rges. 5 and 6, section 1 to 24. Polling station, Fallen Timber School.

Polling Division No. 7 — Twp. 31, Rge. 4; Twp. 32, Rge. 4, sections 1 to 12. Polling station, Elken School.

Polling Division No. 8 — Twp. 31, Rge. 3; west half of Twp. 31, Rge. 2; sections 1 to 12 in Twp. 31, Rge. 3; sections 1 to 9 in Twp. 32, Rge. 2. Polling station, Melvin Hall.

Polling Division No. 9 — Twp. 31, Rge. 1; east half of Twp. 31, Rge. 2; Twp. 32, Rge. 1, sections 1 to 6; Twp. 32, Rge. 2, sections 1 to 3, 10 to 12. Polling station, Municipal Office, Didsbury.

Polling Division No. 10 — Twp. 31, Rges. 28 and 29; Twp. 32, Rge. 28, sections 1 to 6; Twp. 32, Rge. 29, sections 1 and 2. Polling station, Mountain View Community Hall.

Polling Division No. 11 — Twp. 31, Rge. 27; Twp. 32, Rge. 27, sections 1 to 6. Polling station, Lone Pine Hall.

Polling Division No. 12 — Town of Didsbury. Polling station, Didsbury Town Office.

That I will on Tuesday, the 4th day of November, 1952, at the hour of two o'clock in the afternoon, at the office of the Secretary-Treasurer, Didsbury, Alberta, open the ballot boxes and declare the votes for and against the proposed scheme.

Given under my hand at Didsbury, Alberta, this 25th day of September, 1952.

W. W. GILLRIE
Returning Officer

get your share of this...
\$93,494,460⁵⁷

Since the first Canada Savings Bond was sold—interest payments totalling about ninety three and a half million dollars have been paid out to about one million owners. This represents an average return of approximately \$100. Some owners have earned more interest than this—some less—but all would agree that they have had a handsome return for an investment that is cashable at full face value at an instant's notice.

It is the easiest, most carefree way to earn money that one can imagine. And now the new Seventh Series of Canada Savings Bonds offer a better return than ever! They pay an average of 3.44% per year if held for their full term of 10 years and 9 months. The Seventh Series bonds—like earlier issues—are cashable at full face value plus interest at any time at any bank in Canada.

SO MAYBE IT ISN'T RAINING . . .

Almost a million Canadians each year purchase Canada Savings Bonds as a safe, convenient way of putting a savings nestegg away for a "rainy" day. New Seventh Series, Canada Savings Bonds are now on sale . . . available on the popular Payroll Savings Plan.

They are like dollar bills that earn interest . . . they can be held to maturity to yield you an attractive 3.44 per cent interest. Yet, if the need should arise . . . Canada Savings Bonds are cashable at any bank, anytime, at full face value plus earned interest.

Join the ranks of those Canadians who plan for the things they want in life by convenient systematic savings the Canada Savings Bond way!

Code Of Ethics For National Newspaper Week

The first week in October was celebrated as National Newspaper week and we reprint below a cutting from The Canmore Canadian, one of Western Canada's leading weeklies, which we think expresses very well the belief of the majority of newspapers in this free country of ours.

"We believe that journalism is an honorable profession, essential to the welfare of society in peace as in war.

We believe that the success of democratic government depends upon sound public opinion, and that the newspapers should aid in creating and maintaining sound public opinion by publishing significant news and editorial interpretations of the news.

We believe that a newspaper that goes into the home should publish nothing that cannot be read aloud in the family circle.

We believe that all persons and all organizations are entitled to fair play in the columns of the newspaper.

We believe in the right of privacy of individuals in all matters not of public concern.

We believe that no propaganda or publicity matter should be published unless it contains information to which readers are entitled and that whenever such material is printed, its source should be plainly indicated.

We believe that the purpose of newspaper advertising is to create a demand for commodities or services, to inform readers, but never to mislead or defraud them.

We believe that advertisements should present the truth as the writer sees it. We are always independent, but never neutral.

We believe that neither the business interests of a newspaper nor any outside influence should interfere with the publication of the truth in news or editorials.

We believe that advertisements should be clean and wholesome as news and editorials and that such advertisements are essential to the development of our high standards of living.

We believe that rates for subscriptions and advertising should be sufficient to insure the publisher a fair profit.

We believe that all statements of circulation should give the actual number of bona fide subscribers.

We believe that only such newspapers as maintain the highest standards of truth, honesty and decency in news, editorials and advertisements deserve the support of the community.

We believe that business is worth going after, and that a prosperous newspaper can do more for its community than one that is "ill-equipped, ill-housed and ill-supported."

We believe that World unity, progress and peace depend upon free access to all news sources and uncensored fair dissemination thereof.

We believe that "Freedom goes where the newspaper goes."

Farm debt in the United States has been steadily increasing since World War II. During the past year the increase was 8 per cent, the sharpest one-year rise in more than 30 years.

Flight-Lt. Ernest A. Glover of Leaside, Toronto, who destroyed one MIG-5 and damaged another in one day, stands near his plane at a Fifth Air Force Base somewhere in Korea. Lt. Glover, a Royal Canadian Air Force exchange pilot with the U.S. 4th Fighter Interceptor Wing, made his "kill" by out-manoeuvring the Russian built MIG, causing it to crash without a shot being fired.

Dates To Remember

November 14 to 22 and November 29 to December 6 are important dates to many Albertans. These are the dates of the Royal Agricultural Winter Fair at Toronto and the International Grain and Hay Show at Chicago. A. M. Wilson, field crops commissioner, points out that exhibitors from this province have always upheld the quality of Alberta produced grain by exhibiting at these big shows, and that with this year's crop there is even greater opportunity to win top premiums.

The Alberta department of agriculture again offers additional awards to prize winners and continues to undertake shipment of samples and provide supervision of exhibits. Entries in the seed section of the Royal Winter Fair close October 18. For the International Grain and Hay Show, closing date for entries is November 10. Anyone interested in preparing seed for either of these exhibitions may obtain a bulletin and full information from district agriculturists or from the Field Crops Branch, Alberta Department of Agriculture, Edmonton.

WHAT'S AHEAD?

Where business is booming, look for it to stay that way for the months ahead; where business is off, look mostly for an early pick up. A real boom in construction and new investment is in the making. Over-all, the economy to stay at today's high levels at least the first half of 1953.

That, in essence, is how business leaders and economists, questioned by The Financial Post, see the business outlook for the rest of 1952 and most of 1953.

Bancroft Buttercups
Elect New Officers

The Bancroft Buttercup Girls' Club held their monthly meeting at Bancroft School on September 27. The meeting opened by singing "Home on the Range" and repeating the creed.

Roll call was answered by "Ideas On Handicraft."

Plans were made for a dance on November 21 at Carstairs East Community Hall, with door prizes to be offered.

Objective for this month was to bring a pair of pot holders to the meeting.

New officers were elected as follows:

President, Sheila Stearns; vice-president, Beth Thomas; secretary, Alma Swanson; treasurer, Viola Schmek and sick convener, Patricia Hoskins.

Two new members were welcomed into the club, Beth Thomas and Lois Stearns. Betty Newmiller won the raffle. The next meeting will be held at the home of Sharon Hall on October 25.

"God Save The Queen" was sung to end the meeting, after which a winter roast was held for the children of the district, ending with treats.

A DREAM PASSES ON

The pace of life is constantly changing, and it appears that the steam locomotive of today is to become one of the victims of modern civilization's ruthless mania for more efficiency and more speed.

Diesel engines have been brought into service on Canada's two large railway lines. Company officials point out that the diesel is more economical, takes less upkeep, is capable of hauling heavier loads faster than the faithful old puffing steam engine.

But a person cannot see the old blackened steaming engine leave our way of life without a touch of nostalgia. There was always something glamorous about the engineer and his fireman; something very friendly in the wave of their gloved hands to the group of children playing alongside the right-of-way.

The noise of the old locomotive hissing of escaped steam; even the trail of dirty cinder ash left in the wake of blackened smokestack excited the imagination of the youngsters. There is hardly a man living today but who at one time in his young days, had romantic thoughts of being at the throttle of a six-wheel drive locomotive pounding along through treacherous conditions.

Even the lonely whistle of the locomotive has given way to the penetrating, hoarse of the diesel which may be more efficient but is at the same time much more impersonal.

It could be that the youngsters of tomorrow will weave the same dreams around the diesels as did their predecessors around the old steam engine. But the diesel is moving into another field, and will have to pit its sleekness and cold efficiency against the imaginations aroused in young hearts by jet planes, rockets and space ships.

We're rather inclined to believe that the diesel will not be able to meet this competition. That it will serve the railways and the country efficiently and well, but without any of the glamour which placed the steam locomotive supreme in its field for at least two generations.

NOTES

W.K. Snyder,
Field Supervisor

Plant Diseases: During the last month or two we have been asked by numerous farmers to investigate for them what appeared to be crop damage resulting from the use of 2-4-D weed killers. Oats seemed to suffer more damage than wheat or barley. Lamin oats in particular appear to be most susceptible to injury. The fields were asked to investigate appeared to develop normally and showed no apparent injury until harvest time, when there were some empty kernels on every head. What looked like a normal kernel had nothing but the hull. This, of course, cut the yield to some extent in several cases.

Mr. Harry Leggett, agronomist, Lacombe Experimental Station, accompanied me on some of these investigations. He states that in his experimental work carried out at Lacombe last year they found exactly the same conditions and results prevalent on Lamin oats where 2-4-D was not used.

Mr. Leggett says that in a year of abnormal rainfall followed by high temperatures during the early part of the growing season, a severe form of root rot sometimes attacks certain varieties of oats. This will result in the heads being very light, because plant food has been cut off because of the diseased condition of the roots. Dr. L. E. Tyson, plant pathologist, University of Alberta, also examined a plant specimen and corroborates Mr. Leggett in this opinion. He said the organism involved in this case of disease is most likely "fusarium."

Wheat plants submitted to both the University of Alberta and the University of Saskatchewan were affected with either "take-all" which is also a plant disease, or "Septoria Glume Blotch."

The conclusion is that we should not be too ready to condemn 2-4-D in the cases we investigated it apparently was not the cause of the trouble.

CHRISTIAN SCIENCE

"Are Sin, Disease, and Death Real?" This question constitutes the subject of the Lesson-Sermon in Christian Science churches on Sunday. It includes this record of the example set by the Master, Christ Jesus: "And in that same hour he cured many of their infirmities and plagues, and of evil spirits; and unto many that were blind he gave sight." (Luke 7: 21). Also this assertion from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Sickness, sin and death, being inharmonious, do not originate in God nor belong to His government. His law, rightly understood, destroys them. Jesus furnished proofs of these statements."

CANCER "CURE" CAUTION

Surgery and radiation, used singly or in combination, can cure most cases of early cancer. The Canadian Cancer Society warns that any other claims of "cures" should be thoroughly investigated.

FIRE PREVENTION WEEK

OCTOBER 5th to 11th

Is required of us, ONE and ALL

FIRE PREVENTION does not happen. It is caused by the efforts of thoughtful men and women. Find out what you need to know about fire safety; this is a week proclaimed for that purpose. WORK IN CO-OPERATION with your Fire Department. The fire inspection service of modern fire departments is developing to keep pace with modern machinery for fire fighting and more extensive training for firemen. Fire waste hinders progress. Death and destruction from fire can be prevented by remedy of fire hazards and by knowing what to do in case of fire.

"HELP REDUCE ALBERTA'S FIRE WASTE"

HON. C. E. GERHART
Provincial Secretary

A. E. BRIDGES
Fire Commissioner

Why Gamble on Prices Next Spring?

PLACE YOUR ORDER FOR MARVELUBE OIL AND GREASE NOW!

IF PRICES RISE BETWEEN NOW AND NEXT SPRING YOU PAY TODAY'S PRICE

IF PRICES FALL YOU PAY ON THE BASIS OF THE LOWER PRICE

This is an offer we've been making year after year... and more and more farmers are finding it pays. The offer is open until Dec. 31st. Nothing to pay down—pay only on delivery sometime between Feb. 1st and April 30th. If prices rise between now and spring delivery you pay today's price. If prices drop between now and spring delivery you pay on the basis of the lower price. No matter what way you look at it you have everything to gain and nothing to lose. Don't delay. Place your order now!

NOTES FROM D.A.

HUGH McPAIL

Bang's Disease Among Cattle
The symptoms of this serious disease of cattle are as follows: A cow may lose her calf prematurely at 3 to 8 months of pregnancy. This is followed by other cows in the herd losing theirs too. In some herds a whole calf crop has been lost from the disease. Sometimes only 20 to 50 per cent of a calf crop is lost. That is serious enough, as the cattleman's gross income in a couple of years when these animals should be ready for market will be down several hundreds or thousands of dollars.

The usual story with Bang's in-

New Savings Loan Coming Up

There is the new issue of Canadian government Savings Bonds coming up, the drive to start Oct. 14. When you subscribe to this loan the biggest favor is actually to yourself. You are buying a gift-edged security that is transferable with out trouble in case of emergency. In spite of all the monetary theories which have been expounded to confound the people, there has nothing been brought forward yet to beat a reasonable program of frugality. A financial nest-egg saves many a sleepless night . . . and often is the starting point on the road to a successful business career. This is one of the finer features of the good old capitalistic system. Don't let the crackpots fool you, capitalism will be with you for many a decade.

Infection in a herd is that a cattleman buys a cow or more doesn't get it tested to see if it has the disease or not, brings it home, and after while she loses her calf. This is followed by more cows giving birth to calves prematurely. Then some cows must be sold due to sterility from the disease and the breeding program is upset. Usually, however, only the odd cow becomes sterile from the disease. Infected cattle are a source of danger to humans, especially when they supply the milk to the house. Bang's disease causes undulant fever in humans. It can be transmitted to humans through raw milk, or through cuts in a person's hands helping at calving time, if the cow is infected. The milk cows at least should be blood-tested to make certain the milk is safe to drink.

Start now to build up a Bang's resistant herd. Don't be like some who delayed and lost thousands of dollars. Contact your veterinarian today! The Alberta department of agriculture recommends vaccination, coupled with good herd management, as an economical and practical way to prevent and control the disease. The co-operation of all cattlemen is necessary in building up herds that are resistant to Bang's disease.

Talking Dog Has Visitors From All Over The World

The following is a clipping from a Scottish newspaper which we think would be of interest to our readers. One thing which makes it particularly interesting to the editor is the fact that his parents were in Scotland recently and returned with a picture of the talking dog mentioned and were privileged to have an audience with him. The following is by a "Sunday Post" reporter:

"You remember Blackie Bol, the talking dog of Ceres, Fife?"

Well, he's talking more than ever. On Thursday I said "Hullo!" and he said "Hullo" back.

Then I asked him if he'd been a good dog lately, and he said "Yes," and —

No, I'm not pulling your leg. That actually happened. It was just as sceptical as most people are when they hear about it first.

But, believe me Blackie Bol really does talk. At one point he said "Hullo" so often I could hardly keep up. It was like a cross-talk act in a summer show.

Blackie Bol lives with his master and mistress, Mr. and Mrs. Beattie.

When he was six months old, the Beatties talked to him quite naturally. Every time Mr. Beattie saw Blackie Bol he said "Hullo, boy, hullo."

That started it. Blackie Bol's fame spread.

Since then vets, dog breeders, dog lovers have come to Ceres in their hundreds. And Blackie Bol has said "Hullo" to them all.

That first summer something like 600 people came to hear the talking dog. They came from the South of England and the North of Scotland.

Last year all the world came — from Ecuador, Paris, Stockholm, Ceylon, Natal, Canada, America.

Spiritualists talked about reincarnation. Vets about vocal gymnastics. But nobody could explain it. Meanwhile Blackie Bol began to enlarge his vocabulary.

I heard him say "Now, now, now" when Fifi (another dog) came scrambling for my attention.

He said "Please!" for a lump of sugar, and "No" when Mrs. Beattie told him to behave.

Solemn-faced he rolled over on his back. Gently I tickled his chin.

The next minute my hair stood on end. For Blackie Bol laughed "Heh, heh, heh."

Last year six bachelors of science arrived in a bunch at the cottage in Ceres. Scientifically they set about testing the talking dog.

They took him on to the road, where there was no chance of ventriloquism. And Blackie Bol talked. Half an hour later six B.Sc.'s drove thoughtfully away.

Already this summer's visitors are starting to knock at the cottage door in Ceres.

The Beatties love it. They're getting a kick out of it — watching the amazed faces, the doubts dissolve, the sceptics confounded.

Blackie Bol's fame spread.

Four Hundred New 1952 Barley Entries

Results of the campaign for production of higher quality barley in western Canada is reflected in the 1952 entry list for the National Barley Contest.

The competition initiated by the brewing and malting industry in 1946 and continued annually since is this year confined to Manitoba and Alberta. As in former years each contestant is required to enter a minimum carload of 1,000 bushels.

Even with only two of the three prairie provinces total entries are near the peak of former years. There have been 1,063, 381 from Alberta and 512 from Manitoba.

Of the total number more than 400 have been by growers not entered in any previous contest.

Up to September 30 there were 151 carloads shipped, 102 from Manitoba and 49 from Alberta. Up to the present all the cars graded into the malting grades.

The high percentage of new contestants evidences co-operation of growers to achieve the objective sponsors of the contest had in mind. Aside from providing cash awards for regional, provincial and inter-provincial winners, the brewing and malting industry founded by the Barley Improvement Institute and six year provides scholarships in each Canadian universities for work in barley research.

This year the allocation for this work is \$20,940 of which \$12,440 is allotted to universities of the three prairie provinces.

One of every seven deaths last year was caused by cancer.

ARE YOU ABLE?

(The War Cry)

able to suffer without complaining?

To be understood without explaining?

able to endure without breaking?

To be forsaken without forsaking?

able to give without receiving?

able to ask without commanding?

To love despite misunderstanding?

able to turn to the Lord for guarding?

able to wait for His own rewarding?

One of every seven deaths last year was caused by cancer.

October 5-11 Declared Fire Prevention Week

Because authoritative statistics show that during the past ten years \$34,775 fires in Canada have destroyed property valued at \$352,000,000 and that during the same period 4,087 persons have lost their lives and an estimated minimum of at least 15,000 others have been seriously injured as the result of fire, the Dominion government has declared October 5-11 to help the prevention of fires generally.

More particularly is the week deemed necessary because annually the toll, both in lives and in property is growing heavier.

During the week, much publicity will be given by the press, over radio and screen, to the common danger points, the way in which the ordinary citizen can help, and what it means generally to each.

Skinny men, women gain 5, 10, 15 lbs.

EAST NOTES

(From Our Own Correspondent)

The next Girls' Club meeting will be held at the home of the Schumaker girls on October 17.

Mrs. Winnie Bittner is spending a few days with her brother Lewis and family in Calgary.

Miss Marjorie Goetjen, Miss Shirley Sprague, Mr. Ernie Bird and Eddy Patterson all motored to Red Deer on Friday night to take in the outdoor show.

Congratulations are extended to Mr. and Mrs. Lewis Sprague of Calgary on the birth of a son. Lewis was formerly of the Burnside district.

Another 10 days of good weather should see threshing and combining completed for the year.

Joyce Schumaker spent last Wednesday night with the Weber girls.

RABIES IN ALBERTA

A strict program of quarantine kept Canada relatively free of the dread rabies disease until recently, when it broke out among the foxes and wolves in the Fort Vermilion area of northern Alberta, and a number of cattle, swine, horses and dogs were bitten and infected by the wild animals. Federal and provincial officials and the R.C.M.P. went into action immediately, vaccinated all dogs, destroyed all animals showing symptoms of rabies and quarantined premises where the disease was suspected. Simultaneously, they spread information among the people so they would know the cause, nature and effects of rabies. Medical doctors were warned so they could be ready should a human require treatment.

A virus disease, rabies is transmitted to humans and other animals by the bite of a diseased animal. It attacks the nervous system and a paralysis, often fatal, results. Because it can be transmitted only by a bite, or in rare instances, by the saliva of an infected animal entering an open wound, quarantine measures can usually stop an epidemic in its tracks, with the cooperation of the people in the danger area. With wild animals, quarantine is difficult and the R.C.M.P. and provincial officials in Alberta are considering the possibility of reducing the fox and wolf population in that province.

Even with this incident, Canada's record for rabies is still small. In the United States, the disease kills an average of 30 humans a year and an annual \$5,000,000 loss in livestock.

OTTAWA BEEF STATEMENT CLARIFIES SUPPORT PLAN

The federal agriculture department has issued a statement clarifying its price support policy for beef.

Confusion arose, the department said, over a misunderstanding between the terms "unfinished" and "lightweight" cattle. The department, which is supporting beef at 25 cents a pound, is extending the support to finished, heavy cattle only. A 23-cent-a-pound floor applies to finished cattle of lighter weight. There is no support for unfinished cattle.

"Price support is not limited to cattle making carcasses of 700 pounds and up," the statement said, "but 'finished' carcasses of 700 pounds and up are receiving the higher 25-cent support, basis 'good' steers Toronto, up to Nov. 15.

"Properly finished cattle of lighter weight, however, are being supported at the 23-cent rate, basis 'good' steers Toronto.

"If the U.S. embargo has not been removed by April 1, the support price on all properly finished cattle will then go up to the 25-cent level, basis 'good' steers Toronto.

Department officials stressed that the distinction is not one of weight but of finish and quality.

Harry Lumley, one of the best goal tenders in the business, moves to the Toronto Maple Leafs for the 1952-53 season. The move from the cellar-dwelling Chicago Black Hawks to the Leafs was made when Connie Smythe detonated the biggest pre-season swap, giving Chicago Gus Mortson, Cal Gardiner, Al Rollins and Ray Hnaggin for the backstop.

DISTRICT NEWS

O.S.A. Notes

Olds School of Agriculture and Home Economics

Principal J. E. Birdsall this week presided at the first O.S.A. staff meeting of the new term. The purpose of the meeting was to discuss policies and regulations.

New staff members who were welcomed to the staff at the meeting are Miss Rosemary Shaw, Calgary; Anne Kernaliegun, Melfort, Sask.; Elizabeth Saint, Amherst, Nova Scotia and Mr. Donald H. Helmbecker, Calgary.

Miss Shaw graduated this spring from the Holy Cross hospital, Calgary, and will serve as school nurse and instruct the home nursing courses.

Miss Kernaliegun received her Bachelor of Science degree from the University of Saskatchewan. Since graduation she has worked with the extension service of the Ontario department of agriculture and last year taught at the Vermilion School of Agriculture. She will teach handicrafts, home management and apartment.

Miss Saint is a graduate of Mount Allison University, Sackville, New Brunswick. Miss Saint will be dean of women and instruct the cookery and nutrition classes.

Mr. Helmbecker received his Bachelor of Science degree at the University of Alberta and since graduation has worked at the Provincial Horticultural Station at Brooks. He will be dean of men and instruct in entomology, horticulture and physical training.

Returning staff members include Miss Kathleen O'Callaghan, dietitian and instructress in laundry; Miss Helen Mosses, instructress in sewing, clothing selection and textiles. Mr. H. W. Malton will instruct in dairying, poultry and mathematics; H. J. Armstrong in metal work; R. Cooper, animal husbandry; H. W. Sutherland, science; C. L. Belanger, supervisor of maintenance and instructor in farm buildings; F. C. Jorgenson, instructor in field husbandry and botany; and K. May, instructor in mechanics, motors and machinery. Mr. Birdsall will instruct farm management.

A REAL DUCK SCARE

A grain farmer in the Vulcan district invented a marvelous life-like scarecrow to keep the ducks from Lake MacGregor off his field. It is made of tin and not only waved its arms at irregular intervals but emitted a loud noise every few minutes.

"Did it scare the ducks," he was asked. "Scare the ducks!" he cried. "I should say it did. Why, that contraption scared the ducks so bad some of them brought back wheat they stole two years ago."

fit

SAY HARVEY-WOODS!

For underwear that keeps a man comfortable, washes well—doesn't shrink or stretch out of shape—handsewn for ages, always look for the Harvey-Woods label. It's our signature, your assurance of the best quality. Shown at right, no-button FIB's. Below: the two-piece Twin-Line style.

For socks that will not stretch—Harvey-Woods Wool hose, Reinforced throughout with nylon.
